EPFF single contributions: one-time contribution to the employee pension fund foundation (EPFF) of CHF 5.5 million.

Client funds, client deposits and fiduciary investments incl. client assets with account and custody account
management at third-party banks (incl. double counting); without cash management positions

²⁾ Equity before the appropriation of profits without minority interests

³⁾ without value adjustments interest rates; depreciation excl. goodwill depreciation

⁴⁾ Basis: profit before allocation to reserves without minority interests

GKB consolidated accounts 2016: good result confirmed.

Peter Fanconi Chairman

Alois Vinzens CEO

In 2016 Grisons Cantonal Bank made a number of strategically important decisions for the future. With the restructuring of the bank participations Privatbank Bellerive AG (PBB) and Private Client Bank (PCB) as well as the acquisition of a minority stake in Albin Kistler AG, GKB laid the foundations for the further diversification of its revenues. The 2016 financial year was positive. In addition to a sound operating result, the introduction of the digital consultancy mandate strengthened GKB's position on the investment side.

Loans to clients: robust growth of 3.0%

Client lending increased by 3.0%. In the case of mortgages (+5.8%), growth of 3.6% was achieved with first-class mortgages in other cantons. This off-set declining momentum in the domestic market.

Client assets:

CHF 0.3 billion inflow of new money

The sale of PCB on 1 January 2016 trimmed client assets to CHF 27.9 billion. The performance (CHF +0.2 billion) and the inflow of new money (CHF 0.3 billion) helped to compensate for this. The reported net new money of CHF 309.2 million was positive for the first time in years. The outflow of non-domestic client assets fell to a minimum, now that historical legacies have broadly been cleared up.

Net interest income: negative interest rate environment is a strain

Income from interest-earning operations (CHF 239.6 million) increased by 4.0% due to the declining cost of hedging transactions. Value adjustments had a minimal impact on interest earnings of CHF 0.2 million. Relative to the previous year, this was equiv-

Grisons Cantonal Bank ("GKB") has reported a stable result for 2016. This was influenced by various special factors, such as for example the acquisition and sale of participations. Grown in client assets and on the mortgage side of the business developed positively. At CHF 168.5 million, consolidated earnings were broadly in line with the previous year (+0.2%). The canton and shareholders benefit from this with an unchanged dividend distribution of CHF 95.0 million

alent to an improvement of CHF 0.2 million. Gross interest earnings rose by 3.9%. The volume of non-performing loans declined. The 0.22% ratio corresponded to a historic low. The negative interest environment continued to impact the client side of the business. Despite the growth in volumes, the earnings contribution declined further.

Commission and trading business: PCB no longer made earnings contribution

Earnings from commission and service activities fell 15.2% on account of the divestment of PCB. If PCB's contribution in the previous year is taken out of the equation, then earnings fell only by 3.9%. The launch of the consultancy mandate on the investment side of the business did not wholly offset the decline in securities transactions. Foreign exchange earnings profited in the previous year from the lifting of the minimum exchange rate against the EUR.

Operating expenses: Productivity remains high

Operating expenses, including the settlement of the state guarantee, sank 0.3% relative to the previous year. The omission of PCB's operating expenses was offset by a one-off contribution to the employee pension fund foundation (Personalvorsorgestiftung – "PVS") of CHF 5.5 million. This reduced the financial impact of the lower conversion rates for occupational pensions for long-standing employees. Excluding this special factor, the cost/income ratio II was maintained at 50.2%. As a consequence of the digitalisation initiative, project overheads as well as IT operating costs rose.

Operating result of CHF 156.5 million

Special factors mean the 12.6% decline in operating results does not properly reflect the operating performance. Excluding special factors (participation transactions, PVS contribution), the comparable operating result effectively increased by 1.0% to reach CHF 174.9 million. In addition to a regular value adjustment, the operating result also includes an initial value adjustment on the acquired participation (goodwill depreciation). This meant it was possible to use extraordinary earnings from the restructuring of the PBB/PCB participation to acquire shares in Albin Kistler AG. The excellent result in respect of operating risks is reflected by a net dissolution of provisions amounting to CHF 0.9 million.

Consolidated earnings: upheld

Relative to the previous year, reported consolidated earnings remained broadly stable at CHF 168.5 million (+0.2%) following the change in the level of reserves for general banking risks. The bank financed the project expenditure of CHF 2.9 million linked to the "Digital Banking 2020" using dedicated bank reserves for future investments. The contribution to the occupational pension foundation (CHF 5.5 million) also had no impact on consolidated earnings. The corresponding sum was drawn from the reserve for general banking risks.

Equity base: outstanding core capital ratio of 18.5%

GKB's goal is to positively differentiate itself in the market with an above-average equity base. The weighted capital ratio is 18.5% (CET-1 ratio) and consists entirely of common equity. Compared to the ratio of 12.8% required by the supervisory authorities, the Bank therefore has substantial capital reserves.

Dividend: CHF 100.1 million for the canton, participation capital holders and public

Given the good result, the same dividend of CHF 38 will be paid out. The payout ratio is 53.5% for the parent company and falls within the targeted range of 50 to 60%. A total dividend of CHF 95.0 million will be paid to the Canton of Grisons and the participation capital holders. CHF 2.2 million was allocated to the contributory fund for non-commercial cultural, charitable, sport, business, tourism and social projects. The Canton of Grisons will receive CHF 83.0 million (including payment for the state guarantee), an increase of CHF 0.1 million on the previous year.

Outlook for 2017: higher earnings anticipated

Despite the challenging environment, Grison Cantonal Bank is expecting the group to earn a stable profit in 2017. The earnings performance will be favoured by the discontinuation of special factors, meaning that slightly higher earnings of between CHF 156 million and CHF 160 million are expected. Due to lower extraordinary earnings, the bank is expecting earnings per share to fall to between CHF 64 and CHF 67. On the client side of the business, GKB is expecting growth of CHF 400 million in 2017 for client lending, and an inflow of new money amounting to approximately CHF 350 million.

Chur, 10 February 2017

Graubündner Kantonalbank Participation Certificate.

Listed on SIX Swiss Exchange Sec. No. 134 020 Price: CHF 1,439.002

Graubündner Kantonalbank (GKB) is a mid-sized cantonal bank. In addition to private and corporate client business focused on the Canton of Graubünden, GKB has a long-standing tradition in private banking. Offering a comprehensive range of services, attractive employment options, progressive training opportunities and balanced value management, meeting the needs of its clients, employees, investors and the public is of paramount importance to GKB.

The bank holds strategic stakes in Privatbank Bellerive AG, Zurich, and Albin Kistler AG, Zurich.

Capital structure

Endowment and CHF 250 Mio. participation cap.: 750,000 PC at CHF 100 nom.

CHF 175,000,000 endow. cap.
